If yes, did you pass?

| | | Response Percent | Response Total |
|--------------------------|--|------------------|----------------|
| 1st time | | 97.8% | 174 |
| 2nd time | | 2.2% | 4 |
| Total Respondents | | | 178 |

‘Absolutely fantastic. Taking the course has resulted in my career taking an rewarding new path in project management. Doug Lamb and the rest of the instructors were fantastic. Deborah and the University of Winnipeg did a great job locally.’

Jeff Nordick, Federated Insurance Company of Canada

‘Excellent course, I have recommended it to a colleague who has just commenced his course

Mark Hallo - IMS Health

‘Excellent course. I have suggested it to my Manager as a mandatory course for senior Project managers.’

Tim Flint - Dofasco Automotive Components

‘Great Program. Although I was already doing project management at the time, it help me gain the confidence that I actually knew what I was doing!’

Daniel Dupuis, Dept National Defence

‘Great program. Learned all the areas and the processes needed run a project successfully. Really excellent knowledge to have for any Project Manager.’

James Low, Sandwell

‘I thought it was excellent. In depth knowledge delivered in a timely, well organized, and professional environment. I have recommended it to several people already.’

George Glatz, Government of Manitoba

‘It covered it all - Project Management from A-Z - and ensured I got my PMP.’

Carolyn Gregory, CDS

‘It was clear to me during my participation that the folks who ran the MCPM course were interested in delivering it with excellent results. The high calibre of the teaching staff, the quality of the materials and the small and interactive classroom environments are some evidence of this. I have recommended this course to many others.’

Zeyad S. Merchant - CanWest MediaWorks

‘Since I am on a temporary assignment right now, the impact on salary is not really a relevant question. However, the skills from the program are transferable and very valuable no matter where one ends up working. I think that is very telling.’

Helene MacLean, Bank of Canada

‘Taking this course was one of the two best decisions I made for my career over the past ten years. I now work in the US and having this course played an instrumental part continuing my Project Management carrier outside of Canada. I'm currently a Six Sigma Black Belt and the MCPM program played a significant part of getting me to where I am today. Thank you !’

Kevin Alfonso; The Dow Chemical Company

‘The entire MCPM program experience was positive. From the enthusiasm of the Program Director, to the professionalism and real-life experiences shared by the instructors to the valuable knowledge exchanged between the students - it all made for a very positive experience.’

Deanna Mahood, City of Ottawa

‘The MCPM program has added significant value to my career. When working with clients that are not familiar with the program, a mention of the fact it is affiliated with the UVic provides credibility. For those clients that are familiar with the program, mentioning the fact that I graduated from this program provides instant

credibility. I have never regretted taking the class and thoroughly enjoyed the entire course and the team of instructors.'

Ken Evans - Heritage Mountain Consulting Group Inc.

'The Project Management program was absolutely fabulous. So much so I am looking at furthering my career by enrolling in the Business Analysis Program in 2007. (If you have info please forward it along). Regards, Gary Penner'

Gary Penner, Value Drug Mart Associates LTD.

'This course was fantastic! It thoroughly prepared me to write my PMP and pass on my first attempt. It was also a wonderful opportunity to network with other project management professionals.'

Donna Chapman, RBC Dexia Investor Services

'This was an excellent program covering a significant level of project management that has made a considerable contribution to my recent promotion. I am now in a position to sponsor other public sector employees to take the program as well.'

Francesca Wheler, Province of BC

'This was such a positive experience for me, the lack of use is a company policy, not the fault of the program. In fact I have been told that I am just annoying as I am so adamant about using pm processes and the importance of managing projects in a consistent fashion. I feel that I just can't go back to the old way of doing things - it really changed how i look at every project I encounter - both professionally and on my own time.'

Gail brownlee, ApexIndustries Inc

'Very good course. I realized I didn't want to be a PM and have moved into people management, however, understanding what is involved in running a project has provided a great positive impact in my work.'

Joel Berger - Manulife Financial

David Barrett

National Program Director
